

## Acceptable Use Policy - Technology

Technology resources are provided primarily for Educational purposes.

Technology should not be used in any illegal manner or any manner likely to affect the operation of the College systems or cause embarrassment to the College or any other persons.

The College is the owner of all digital content created or modified using College facilities.

The College reserves the right to monitor all activities undertaken using College resources both during and outside of working hours.

Individuals must not access any resources for which they have not been granted permission.

Personal passwords should not be shared.

## Acceptable Use Policy – Year 7 Ipad

The iPad is to be brought to school fully charged each school day.

Permission must be obtained before taking photographs, recordings or videos of other students or staff

The iPad should be backed up regularly.

## Bring Your Own Device

Any personally owned device which is to be used on the College wireless network must first be presented to the IT Department for registration (and checking of anti-virus software if appropriate).

The College recommends that personally owned devices are insured before being brought onto the premises and accepts no responsibility for damage or theft.
